Introduction

Sudoku puzzles, which are a type of logic puzzle, are now internationally popular. However, they have been around a long time and were originally known as number place or cross number puzzles. Sudoku means 'single number in an allotted space' in Japanese.

The object of Sudoku puzzles is to place the numerals 1 through 9 in a 9 x 9 grid so that each row, each column and each 3 x 3 grid contains each number one time only.

Included are 100 puzzles with four levels of difficulty: Warm Up (★), Easy (★★), Medium (★★★) and Hard (★★★★).
